LEG INSERT STRIP (make 2)

Make 2 Strips joining 1 Triangle Motif and 5 Square Motifs into first Strip as shown in photo.

FINISHING

Pin Leg Insert Strips to measurements. Cover with a damp cloth, leaving cloth to dry. We chose slim fit denim jeans with 30" [76 cm] inseam.

Cut outer side seam carefully from hem edge upward for approx 29" [73.5 cm], following along seam line.

Side edges of opening: Fold side edge of jeans opening to WS and press in position. Using tailor's chalk, draw a line to establish height of 1 row of sc - approx ¼" [.5 cm] from edge of fold line.

Mark spots approx ⅜" [.75 cm] evenly spaced apart to indicate where each sc will be worked.

Optional: Fold side edge of jeans opening to WS of fabric and press in position. With sewing machine set to longest stitch length, sew ¼" [.5 cm] from folded edge. **Note:** Be sure to keep fabric flat as this row of machine stitches will later be worked into with crochet hook.

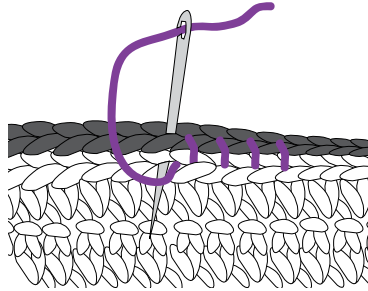

Foundation row to attach Leg Insert Strip: With RS of jeans facing, beg at hem edge, insert U.S. D/3 (3.25 mm) crochet hook through **all** layers of fabric from front to back. Yoh with Soft White and draw up a loop, being careful not to split strands of yarn. *Insert crochet hook into next marked spot approx ⅜" [.75 cm] apart. Yoh and draw up a loop. Yoh and draw through 2 loops on hook – sc made. Rep from * up bottom of jeans to top of opening, then down across opposite side of opening to hem edge. Fasten off.

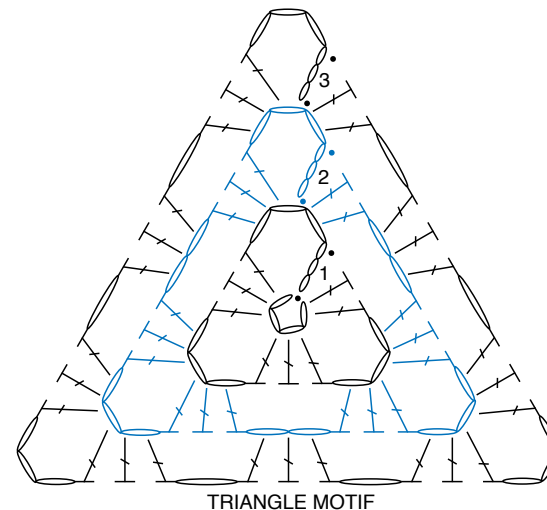

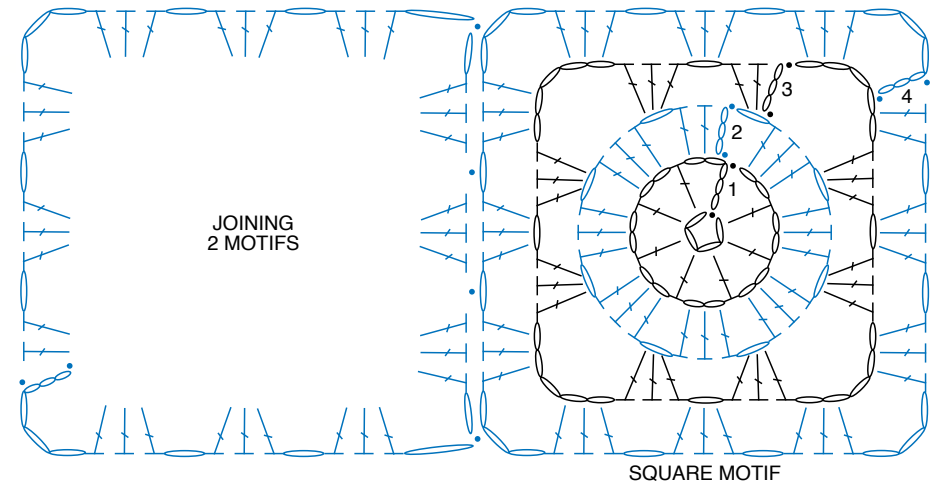

Align Leg Insert Strip, having Triangle Motif at top of opening - slightly adjust to fit length of opening as needed.

With A, sew Leg Insert Strip to foundation row through back loops, using Whipstitch.

WHIPSTITCH

Note: You may need to add or remove a Square Motif for better fit to customize length for your jeans.
